

THIS SHEET IS USED BY CHAIRPERSON ONLY

Captains are asked if they hear the Chairperson clearly.

Chairperson reads the first task aloud. Everyone in the Group hears the task.

The answers are provided by Captains in direct messages to the Chairperson.

The time to answer each question is **20 seconds, including the time of typing.**

After collecting the answers, Chairperson moves on to the second task etc.

Points for any problem can be either **0** (invalid, absent, incomplete, unintelligible or wrong answer) or **1** (correct answer).

All answers and number of points are public.

The winner is determined by the maximum number of correct answers.

In case of a tie, an extra question 6 is offered, and the Captain with the best answer gets an extra 1 point.

The screenshots of answers are submitted to the Scoring Commission for archiving.

All scores (including an extra point in a tie breaker) and the winner are recorded in Science Fight Protocol.

9th IYNT 2021: Captain's Contest for Semi-Finals

1. The world's first cloned animal was cloned from an adult somatic cell in 1996. What was the species of the animal?
2. The first directly observed signal of gravitational waves was generated by the merger of these two objects.
3. Below is given a list of five numbers. Indicate the only one which is **not** a prime number.
5, 7, 9, 11, 13
4. Humans are primates. Is this statement true or false?
5. What is the atomic number of carbon?

Do not ask the question below unless a tie breaker is announced

6. Estimate how many different species live on Earth today.
