Decision on team Cameroon-2 at the 3rd IYNT 2015

In Moscow, May 1, 2015

Dear Mrs. Ayong Blessing Tekock,

I would like to thank you for the list of participants you have submitted for the Serbian visa application process in an email dated April 28, 2015. The birth dates for the delegation members are as follows:

26/11/1974, 01/08/1992, 02/11/1980, 29/01/1989, 28/02/1990, 16/03/1985, 16/03/1987, and 11/02/1976.

If we assume that the two oldest members are the team leaders, the remaining six youngest members are now aged 34, 30, 28, 26, 25, and 22, respectively, sorted descending.

The IYNT regulations set the age limit for the main league of the IYNT such that the students must not turn the age of 17 by December 31 of the competition year. Team member Temokem Cliford from the city of Tiko, for example, was last time eligible as an IYNT entrant in 1996 when a hypothetical minus seventeenth IYNT would take place should the IYNT timeline span endlessly into the past. Back in 1996, Temokem Cliford would have been a successful participant of the 9th IYPT in Kutaisi, Georgia, and I regret that I did not meet him at the International Young Physicists' Tournament back then.

The composition of the team Cameroon-2 leaves us no other option than to advise you that the team cannot participate at the 3rd IYNT 2015 in Belgrade, Serbia.

If you have any questions regarding this decision, I will be glad to answer such questions.

Yours sincerely,
Evgeny Yunosov
